Potential current biennium savings - All Funds

Fiscal Detail and Notes

This bill requires health insurance carriers to reimburse licensed dental hygienists for covered services that are within their scope of practice if those same services would be reimbursed if provided by a dentist. This requirement would increase the volume of claims pertaining to dental visits with licensed dental hygienists, however, it cannot be determined if these new claims would be filed by enrollees who historically had not utilized licensed dentists, therefore increasing costs, or if these new claims would be filed by enrollees who historically had utilized licensed dentists, therefore decreasing costs if the equivalent licensed dental hygienist were less expensive. A more precise fiscal estimate cannot be determined at this time.
