Fiscal Detail and Notes

Requiring the Department of Health and Human Services to propose and implement rates by July 1, 2025 for MaineCare services provided by home and community-based services providers as determined by the department's rate study is expected to have a fiscal impact. However, because the rate setting process is ongoing and rates have not been finalized a more precise impact is not possible at this time. The fiscal impact may be General Fund costs or savings based on the final rates.
