38 SUMMARY

This bill repeals a provision of the Maine Juvenile Code that establishes as a purpose of pre-adjudication detention providing physical care for a juvenile who cannot return

home because there is no parent or other suitable person willing and able to supervise the juvenile adequately.

1 2

The bill, based on recommendations of the Department of Corrections, calls for the setting of benchmarks for measuring progress in reducing the average daily populations of detained youths and committed youths through July 1, 2024.

The bill directs the Juvenile Justice Advisory Group to reestablish the juvenile justice task force to help implement the recommendation made in the February 2020 report issued by the Maine Juvenile Justice System Assessment and Reinvestment Task Force. The task force is directed to work with stakeholder groups and the Department of Corrections and the Department of Health and Human Services regarding the development of a community-based system of therapeutic services for justice-involved youths that works to divert youths from detention and commitment, reduce the rates of detention and commitment across the State and achieve the benchmarks for progress established in this bill.

The bill requires annual reports on juvenile justice from the Department of Corrections to the joint standing committee of the Legislature having jurisdiction over criminal justice and public safety matters through January 31, 2025.

The bill requires that, by January 1, 2022, the Department of Corrections report to the joint standing committee of the Legislature having jurisdiction over criminal justice and public safety matters on possible locations for 2 to 4 small, secure, therapeutic residences for youths for the purposes of providing detention and confinement for a maximum occupancy of a total of 20 youths. One of the residences must be located in Cumberland County, one must be in Penobscot County and 2 other possible locations may be identified. Options must include existing structures for renovation as small, secure, therapeutic residences. The report must include information regarding staffing options and options and cost estimates at each possible site and location for the provision of therapeutic services and programs, including educational services, for youths living in the residences.

The bill appropriates \$1,500,000 to the Department of Corrections and \$500,000 to the Department of Health and Human Services to provide ongoing funding for community-based, therapeutic services or programs for the purpose of diverting justice-involved youths from detention and commitment and reducing the rate of youth detention and commitment.
