12 This bill requires the Department of Health and Human Services to provide assistance
13 to crisis intervention teams and agencies that provide mental health crisis services and to
14 law enforcement agencies to enable them to coordinate mental health crisis services. The

17 provides law enforcement services in the area of the State served by the crisis
18 intervention team or agency. The bill requires the memorandum of understanding to be

21 enforcement agency uses to identify a person in need of mental health crisis services; the
22 protocol the law enforcement agency uses to share a contact report with a crisis
23 intervention team or agency; the process the crisis intervention team or agency uses to
24 receive the report; the protocol the crisis intervention team or agency uses to
25 communicate with a person in need of mental health services or the guardian or family
26 members of that person; and the procedures to be used to convene on a quarterly basis
27 multidisciplinary team meetings to review experiences and discuss opportunities for
28 improvement.
