19 This bill requires that, when a child is ordered into the custody of the Department of
20 Health and Human Services, the department must provide to the foster home in which the
21 child is placed an overview of the child's medical condition and the name and contact
22 information of the child's health care provider at the time of placement, if known. The bill
23 also requires the department to ensure that a child receives an appointment for a medical
24 examination within 3 working days of when the department's custody commences,
25 instead of within 10 days as in current law, and requires that the department inform the
26 foster parent of the appointment.
