## 25 **SUMMARY**

26 Under current law, the University of Maine System, the Maine Community College  
27 System and the Maine Maritime Academy are required to report on the number of  
28 remedial courses taken by students from each school administrative unit in the subjects of  
29 English language arts and mathematics. This bill requires those higher education  
30 institutions to report the costs to the students of those remedial courses, by school  
31 administrative unit, and requires the Commissioner of Education to reduce state subsidy  
32 to the school administrative units and to pay those funds to the higher education  
33 institutions. Those higher education institutions are required to use the funds to reduce or  
34 eliminate the costs of remedial courses to their students and to report to the  
35 Commissioner of Education and the Legislature how those funds were used to achieve the  
36 reduction or elimination of costs.
