### 13 SUMMARY

14 This bill makes the following changes to the laws governing joint use of equipment  
15 regulated by the Public Utilities Commission.

16 1. It changes the conditions under which the commission may order joint use of  
17 equipment by eliminating the requirement that a hearing be held upon the commission's  
18 motion or that a complaint be filed by an affected entity before the commission may order  
19 joint use of equipment. It also eliminates the requirement that the commission find that  
20 the parties have failed to agree on the terms and conditions or compensation for the joint  
21 use of equipment before the commission may enter an order.

22 2. It adds unlit fiber providers, telecommunications service providers and  
23 information service providers to the list of entities that may be subject to an order for  
24 joint use of equipment.

25 3. It expands the types of subscribers whose interests must be taken into account by  
26 the commission when taking actions or issuing orders related to joint use of equipment.

27 4. It requires the commission to adopt rules governing joint use of equipment.
