24 **SUMMARY**

25 Under current law, the Maine Turnpike Authority is required to transfer any operating
26 surplus of the Maine Turnpike each year to the Department of Transportation.
27 "Operating surplus" means the total annual operating revenues of the authority, after
28 money has been put aside to pay reasonable operating expenses, to pay or to reserve for
29 capital expenditures and to meet the requirements of any resolution authorizing bonds of
30 the authority. This bill directs the authority to submit an annual report to the joint
31 standing committee of the Legislature having jurisdiction over transportation matters
32 regarding the level and proper determination of operating surplus provided to the
33 department each year. This bill also directs the Attorney General to investigate an
34 allegation that the authority has failed to provide an operating surplus to the department.
35 This bill also directs the authority to submit a one-time report to the committee no later
36 than January 15, 2012 regarding the amount of operating surplus provided to the
37 department annually after December 31, 1999. The bill gives the committee the authority
38 to submit a bill to the Second Regular Session of the 125th Legislature concerning the
39 subject matter of the report.
