### Sec. 1. 12 MRSA §685-C, sub-§13 is enacted to read:

13. Right established; right accrual. An applicant for a permit required by a land use ordinance has the right for the commission to consider the approval, disapproval or conditional approval of an application for the permit solely on the basis of any orders, regulations, ordinances, rules, expiration dates, fees or other requirements in effect at the time the original application for the permit is filed for review for any purpose, including review for administrative completeness. A right to which a permit applicant is entitled under this subsection accrues on the filing of an original application that gives the commission fair notice of the project and the nature of the permit sought. An application is considered filed on the date the applicant delivers the application to the commission or deposits the application with the United States Postal Service by certified mail addressed to the commission. A certified mail receipt obtained by the applicant at the time of deposit is prima facie evidence of the date the application was deposited with the United States Postal Service.
