Sec. 13. 32 MRSA c. 81, sub-c. 5 is enacted to read:
SUBCHAPTER 5
TELEHEALTH SERVICES
§6231. Definitions
As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.
1. Asynchronous encounter. "Asynchronous encounter" means an interaction between a client and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the client and the person licensed under this chapter.
2. Store and forward transfer. "Store and forward transfer" means the transmission of a client's records through a secure electronic system to a person licensed under this chapter.
3. Synchronous encounter. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a client and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
4. Telehealth services. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
5. Telemonitoring. "Telemonitoring" means the use of information technology to remotely monitor a client's health status via electronic means, allowing the person licensed under this chapter to track the client's health data over time. Telemonitoring may be synchronous or asynchronous.
§6232. Telehealth services permitted
A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this subchapter and in accordance with standards of practice.
§6233. Confidentiality
When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
§6234. Professional responsibility

1 2 3	All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
4	§6235. Rulemaking
5	The board shall adopt rules governing telehealth services by persons licensed under
6	this chapter. These rules must establish standards of practice and appropriate restrictions
7 8	for the various types and forms of telehealth services. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
9	Sec. 14. 32 MRSA c. 83, sub-c. 4 is enacted to read:
10	SUBCHAPTER 4
11	TELEHEALTH SERVICES
12	§7071. Definitions
13	As used in this subchapter, unless the context otherwise indicates, the following terms
14	have the following meanings.
15	1. Asynchronous encounter. "Asynchronous encounter" means an interaction between a client and a person licensed under this chapter through a system that has the
16 17	ability to store digital information, including, but not limited to, still images, video files,
18	audio files, text files and other relevant data, and to transmit such information without
19	requiring the simultaneous presence of the client and the person licensed under this chapter.
20	2. Store and forward transfer. "Store and forward transfer" means the transmission
21 22	of a client's records through a secure electronic system to a person licensed under this charter
	chapter.
23 24	3. Synchronous encounter. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a client and a person
25	licensed under this chapter or between a person licensed under this chapter and another
26	health care provider.
27	4. Telehealth services. "Telehealth services" means health care services delivered
28	through the use of information technology and includes synchronous encounters,
29	asynchronous encounters, store and forward transfers and telemonitoring.
30 31	5. Telemonitoring. "Telemonitoring" means the use of information technology to remotely monitor a client's health status via electronic means, allowing the person licensed
31	under this chapter to track the client's health data over time. Telemonitoring may be
33	synchronous or asynchronous.
34	<u>§7072. Telehealth services permitted</u>
35	A person licensed under this chapter may provide telehealth services as long as the
36	licensee acts within the scope of practice of the licensee's license, in accordance with any
37 38	requirements and restrictions imposed by this subchapter and in accordance with standards
	of practice.
39	<u>§7073. Confidentiality</u>

1 2	When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
3	<u>§7074. Professional responsibility</u>
4 5 6	All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
7	§7075. Rulemaking
8 9 10 11	The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
12	Sec. 15. 32 MRSA §9714 is enacted to read:
13	<u>§9714. Telehealth services</u>
14 15	1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.
16 17 18 19 20	A. "Asynchronous encounter" means an interaction between a patient and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the patient and the person licensed under this chapter.
21 22	B. "Store and forward transfer" means the transmission of a patient's records through a secure electronic system to a person licensed under this chapter.
23 24 25 26	C. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a patient and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
27 28 29	D. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
30 31 32 33	E. "Telemonitoring" means the use of information technology to remotely monitor a patient's health status via electronic means, allowing the person licensed under this chapter to track the patient's health data over time. Telemonitoring may be synchronous or asynchronous.
34 35 36 37	2. Telehealth services permitted. A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this section and in accordance with standards of practice.
38 39	3. Confidentiality. When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
40 41	<u>4. Professional responsibility.</u> All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that

1 2	apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
3 4 5 6 7	5. Rulemaking. The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
8	Sec. 16. 32 MRSA §9863 is enacted to read:
9	§9863. Telehealth services
10 11	1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.
12 13 14 15 16	A. "Asynchronous encounter" means an interaction between a patient and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the patient and the person licensed under this chapter.
17 18	B. "Store and forward transfer" means the transmission of a patient's records through a secure electronic system to a person licensed under this chapter.
19 20 21 22	C. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a patient and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
23 24 25	D. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
26 27 28 29	E. "Telemonitoring" means the use of information technology to remotely monitor a patient's health status via electronic means, allowing the person licensed under this chapter to track the patient's health data over time. Telemonitoring may be synchronous or asynchronous.
30 31 32 33	2. Telehealth services permitted. A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this section and in accordance with standards of practice.
34 35	3. Confidentiality. When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
36 37 38 39	4. Professional responsibility. All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
40 41 42	5. Rulemaking. The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules

1 2	adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
3	Sec. 17. 32 MRSA §9916 is enacted to read:
4	<u>§9916. Telehealth services</u>
5 6	1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.
7 8 9 10 11	A. "Asynchronous encounter" means an interaction between an individual and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the individual and the person licensed under this chapter.
12 13	B. "Store and forward transfer" means the transmission of an individual's records through a secure electronic system to a person licensed under this chapter.
14 15 16 17	C. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between an individual and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
18 19 20	D. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
21 22 23 24	E. "Telemonitoring" means the use of information technology to remotely monitor an individual's health status via electronic means, allowing the person licensed under this chapter to track the individual's health data over time. Telemonitoring may be synchronous or asynchronous.
25 26 27 28	2. Telehealth services permitted. A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this section and in accordance with standards of practice.
29 30	3. Confidentiality. When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
31 32 33 34	4. Professional responsibility. All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
35 36 37 38 39	5. Rulemaking. The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
40	Sec. 18. 32 MRSA c. 113-B, sub-c. 7 is enacted to read:
41	

SUBCHAPTER 7

1	TELEHEALTH SERVICES
2	<u>§12611. Definitions</u>
3 4	As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.
5 6 7 8 9 10	1. Asynchronous encounter. "Asynchronous encounter" means an interaction between a patient and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the patient and the person licensed under this chapter.
11 12 13	<u>2. Store and forward transfer.</u> "Store and forward transfer" means the transmission of a patient's records through a secure electronic system to a person licensed under this chapter.
14 15 16 17	3. Synchronous encounter. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a patient and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
18 19 20	<u>4. Telehealth services.</u> "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
21 22 23 24	5. Telemonitoring. "Telemonitoring" means the use of information technology to remotely monitor a patient's health status via electronic means, allowing the person licensed under this chapter to track the patient's health data over time. Telemonitoring may be synchronous or asynchronous.
25	<u>§12612. Telehealth services permitted</u>
26 27 28 29	A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this subchapter and in accordance with standards of practice.
30	<u>§12613. Confidentiality</u>
31 32	When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
33	<u>§12614. Professional responsibility</u>
34 35 36	All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
37	<u>§12615. Rulemaking</u>
38 39 40 41	The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

1	Sec. 19. 32 MRSA c. 117, sub-c. 15 is enacted to read:
2	SUBCHAPTER 15
3	TELEHEALTH SERVICES
4	<u>§13848. Definitions</u>
5 6	As used in this subchapter, unless the context otherwise indicates, the following terms have the following meanings.
7 8 9 10 11 12	1. Asynchronous encounter. "Asynchronous encounter" means an interaction between a patient and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the patient and the person licensed under this chapter.
13 14 15	2. Store and forward transfer. "Store and forward transfer" means the transmission of a patient's records through a secure electronic system to a person licensed under this chapter.
16 17 18 19	3. Synchronous encounter. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a patient and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
20 21 22	<u>4. Telehealth services.</u> "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
23 24 25 26	5. Telemonitoring. "Telemonitoring" means the use of information technology to remotely monitor a patient's health status via electronic means, allowing the person licensed under this chapter to track the patient's health data over time. Telemonitoring may be synchronous or asynchronous.
27	§13849. Telehealth services permitted
28 29 30 31	A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this subchapter and in accordance with standards of practice.
32	<u>§13849-A. Confidentiality</u>
33 34	When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
35	§13849-B. Professional responsibility
36 37 38	All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
39	<u>§13849-C. Rulemaking</u>

1 2 3 4	The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this section are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
5	Sec. 20. 32 MRSA §13868 is enacted to read:
6	<u>§13868. Telehealth services</u>
7 8	1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.
9 10 11 12 13	A. "Asynchronous encounter" means an interaction between a client and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without requiring the simultaneous presence of the client and the person licensed under this chapter.
14 15	B. "Store and forward transfer" means the transmission of a client's records through a secure electronic system to a person licensed under this chapter.
16 17 18 19	C. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a client and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
20 21 22	D. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
23 24 25 26	E. "Telemonitoring" means the use of information technology to remotely monitor a client's health status via electronic means, allowing the person licensed under this chapter to track the client's health data over time. Telemonitoring may be synchronous or asynchronous.
27 28 29 30	2. Telehealth services permitted. A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this section and in accordance with standards of practice.
31 32	3. Confidentiality. When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
33 34 35 36	4. Professional responsibility. All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
37 38 39 40 41	5. Rulemaking. The board shall adopt rules governing telehealth services by persons licensed under this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
42	Sec. 21. 32 MRSA §14363 is enacted to read:

1	§14363. Telehealth services
2 3	1. Definitions. As used in this section, unless the context otherwise indicates, the following terms have the following meanings.
4 5 6	A. "Asynchronous encounter" means an interaction between an individual and a person licensed under this chapter through a system that has the ability to store digital information, including, but not limited to, still images, video files, audio files, text files
7 8	and other relevant data, and to transmit such information without requiring the simultaneous presence of the individual and the person licensed under this chapter.
9 10	B. "Store and forward transfer" means the transmission of individual's records through a secure electronic system to a person licensed under this chapter.
11 12 13 14	C. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between an individual and a person licensed under this chapter or between a person licensed under this chapter and another health care provider.
15 16 17	D. "Telehealth services" means health care services delivered through the use of information technology and includes synchronous encounters, asynchronous encounters, store and forward transfers and telemonitoring.
18 19 20 21	E. "Telemonitoring" means the use of information technology to remotely monitor an individual's health status via electronic means, allowing the person licensed under this chapter to track the individual's health data over time. Telemonitoring may be synchronous or asynchronous.
22 23 24 25	2. Telehealth services permitted. A person licensed under this chapter may provide telehealth services as long as the licensee acts within the scope of practice of the licensee's license, in accordance with any requirements and restrictions imposed by this section and in accordance with standards of practice.
26 27	3. Confidentiality. When providing telehealth services, a person licensed under this chapter shall comply with all state and federal confidentiality and privacy laws.
28 29 30 31	4. Professional responsibility. All laws and rules governing professional responsibility, unprofessional conduct and generally accepted standards of practice that apply to a person licensed under this chapter also apply to that licensee while providing telehealth services.
32 33 34 35 36	5. Rulemaking. The commissioner shall adopt rules governing telehealth services by persons licensed under this chapter. These rules shall establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this subsection are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.
37	Sec. 22. 32 MRSA c. 137, sub-c. 4 is enacted to read:
38	SUBCHAPTER 4
39	TELEHEALTH SERVICES
40	<u>§17401. Definitions</u>

As used in this subchapter, unless the context otherwise indicates, the following terms 1 2 have the following meanings. 3 1. Asynchronous encounter. "Asynchronous encounter" means an interaction 4 between a patient and a person licensed under this chapter through a system that has the 5 ability to store digital information, including, but not limited to, still images, video files, audio files, text files and other relevant data, and to transmit such information without 6 requiring the simultaneous presence of the patient and the person licensed under this 7 8 chapter. 9 2. Store and forward transfer. "Store and forward transfer" means the transmission 10 of a patient's records through a secure electronic system to a person licensed under this 11 chapter. 12 3. Synchronous encounter. "Synchronous encounter" means a real-time interaction conducted with an interactive audio or video connection between a patient and a person 13 14 licensed under this chapter or between a person licensed under this chapter and another 15 health care provider. 4. Telehealth services. "Telehealth services" means health care services delivered 16 17 through the use of information technology and includes synchronous encounters, 18 asynchronous encounters, store and forward transfers and telemonitoring. 19 5. Telemonitoring. "Telemonitoring" means the use of information technology to 20 remotely monitor a patient's health status via electronic means, allowing the person licensed 21 under this chapter to track the patient's health data over time. Telemonitoring may be 22 synchronous or asynchronous. 23 **§17402.** Telehealth services permitted 24 A person licensed under this chapter may provide telehealth services as long as the 25 licensee acts within the scope of practice of the licensee's license, in accordance with any 26 requirements and restrictions imposed by this subchapter and in accordance with standards 27 of practice. 28 §17403. Confidentiality 29 When providing telehealth services, a person licensed under this chapter shall comply 30 with all state and federal confidentiality and privacy laws. 31 §17404. Professional responsibility 32 All laws and rules governing professional responsibility, unprofessional conduct and 33 generally accepted standards of practice that apply to a person licensed under this chapter 34 also apply to that licensee while providing telehealth services. 35 §17405. Rulemaking 36 The board shall adopt rules governing telehealth services by persons licensed under 37 this chapter. These rules must establish standards of practice and appropriate restrictions for the various types and forms of telehealth services. Rules adopted pursuant to this section 38 39 are routine technical rules as defined by Title 5, chapter 375, subchapter 2-A.

1	SUMMARY
2	This bill permits health care providers licensed under the Department of Professional
3	and Financial Regulation to provide telehealth services as long as the licensee acts within
4	the scope of practice of the licensee's license, in accordance with any requirements and
5	restrictions imposed by law and in accordance with standards of practice. The bill defines
6	"telehealth services" and authorizes licensing entities to adopt rules to establish standards
7	of practice and restrictions for telehealth services.
