SUMMARY

This amendment, which is the minority report of the committee, replaces the bill and changes the title. It provides that a new motor vehicle that has had an inspection is not required to have another inspection until 2 years from the last day of the month in which it was initially registered and then 4 years from the last day of the month in which it was initially registered. After this time period has passed, the motor vehicle is required to have an annual motor vehicle safety inspection.
