11 section number to read consecutively.

## 12 SUMMARY

13 This amendment is the majority report of the committee and does the following.

14 1. It removes the provision in the bill requiring insurers to provide professional  
15 liability insurance coverage for health care services provided through telehealth services  
16 in the same manner as the coverage is provided for face-to-face contact between a health  
17 care practitioner and a patient.

18 2. It clarifies that carriers may only apply prior approval and credentialing  
19 requirements for providers for services provided through telehealth services if the  
20 requirements are the same as are applied for services provided in person.

21 3. It removes the provision requiring carriers to notify enrollees and prospective  
22 enrollees about coverage for telehealth services because carriers are already required to  
23 provide enrollees and prospective enrollees information about benefits and coverage.

24 4. It makes the bill's provisions apply to health insurance policies issued or renewed  
25 on or after January 1, 2019.
