

127th MAINE LEGISLATURE

FIRST REGULAR SESSION-2015

Legislative Document

No. 178

H.P. 136

House of Representatives, January 27, 2015

Resolve, Directing the Department of Marine Resources To Conduct an Impact Study in the St. George River Estuary

Reference to the Committee on Marine Resources suggested and ordered printed.

R(+ B. Hunt

ROBERT B. HUNT Clerk

Presented by Representative KRUGER of Thomaston. Cosponsored by Senator GERZOFSKY of Cumberland and Representatives: EVANGELOS of Friendship, KUMIEGA of Deer Isle, PARRY of Arundel, PIERCE of Dresden, Senators: LANGLEY of Hancock, MIRAMANT of Knox.

1 Sec. 1. Department of Marine Resources to conduct an impact study in 2 the St. George River estuary on the effect of harvesting marine worms and 3 softshell clams in the same area. Resolved: That the Department of Marine 4 Resources shall conduct an impact study in the intertidal area of the St. George River estuary on the effects of harvesting marine worms and softshell clams in the same area. 5 The department must investigate the effects harvesting marine worms has on softshell 6 clams in areas where softshell clams are harvested, in particular the effects harvesting 7 8 marine worms has on nearby seed clams. The department shall collaborate with the 9 Georges River Regional Shellfish Management Committee and the member towns of St. George, Thomaston, South Thomaston, Cushing and Warren in determining the intertidal 10 area to be studied and the practices being used in harvesting both marine worms and 11 softshell clams and developing best management practices for harvesting marine worms 12 and softshell clams in the same area: and be it further 13

14 **Sec. 2. Report. Resolved:** That the Department of Marine Resources shall 15 submit a report on the study under section 1 and any recommended legislation to the Joint 16 Standing Committee on Marine Resources by January 4, 2016. The Joint Standing 17 Committee on Marine Resources may report out a bill based upon the report to the 18 Second Regular Session of the 127th Legislature.

19

SUMMARY

This resolve directs the Department of Marine Resources to conduct an impact study in the intertidal area of the St. George River estuary in collaboration with the Georges River Regional Shellfish Management Committee and the member towns on the effects of harvesting marine worms and softshell clams in the same intertidal area in order to develop the best management practices in harvesting both species in the same area. The resolve directs the department to report its findings and any recommended legislation to the Joint Standing Committee on Marine Resources.
