5 **SUMMARY**

6 This bill requires the Department of Health and Human Services to classify a finding,  
7 after an investigation of a complaint of abuse, neglect or misappropriation of property of  
8 a client, patient or resident against an unlicensed assistive person, as an unsubstantiated  
9 finding or as either an indicated or substantiated finding based on the level of abuse,  
10 neglect or misappropriation found by the department.

11 An unsubstantiated or indicated finding is not listed as a notation on the Maine  
12 Registry of Certified Nursing Assistants and Direct Care Workers, whereas complaints  
13 that are substantiated are listed as notations on the registry.

14 The department is required to establish criteria by rule to determine the level of  
15 abuse, neglect or misappropriation that warrants a finding that the complaint is indicated  
16 or substantiated.

17 The bill clarifies that current hospital, convalescent home and nursing home licensing  
18 renewal fees are calculated by taking the amount of the renewal fee per bed multiplied by  
19 the number of beds in the facility, and multiplying that product by the number of years  
20 included in the term of the renewed license.

21 This bill updates the laws concerning the licensing of end-stage renal disease  
22 facilities. It changes the frequency of end-stage renal disease facility surveys from every  
23 year to every 24 months.
