30 **SUMMARY**

31 This amendment replaces the bill, which is a concept draft. It is the unanimous report  
32 of the committee. The amendment:

33 1. Allows a facility that tests medical marijuana samples for the cannabinoid profile,  
34 potency and contaminants to operate in the absence of rules adopted by the Department of  
35 Health and Human Services if the facility has obtained documentation of the facility's  
36 accreditation pursuant to standard ISO/IEC 17025 of the International Organization for  
37 Standardization by a 3rd-party accrediting body;

38 2. Clarifies that qualifying patients, primary caregivers and registered dispensaries  
39 may manufacture marijuana products from harvested marijuana, including production of

1 marijuana concentrate by processes of marijuana extraction that do not involve certain  
2 inherently hazardous substances;

3 3. Establishes a process for persons or entities that are not qualifying patients,  
4 primary caregivers or registered dispensaries to manufacture marijuana products from  
5 harvested marijuana, including marijuana concentrate by processes of marijuana  
6 extraction that do not involve certain inherently hazardous substances, to become  
7 registered to manufacture marijuana products;

8 4. Establishes a method for qualifying patients, primary caregivers and registered  
9 dispensaries to become authorized by law to produce marijuana concentrate by processes  
10 involving inherently hazardous substances if certain safety and compliance standards are  
11 met;

12 5. Establishes a process for persons or entities that are not qualifying patients,  
13 registered caregivers or registered dispensaries to become authorized to produce  
14 marijuana concentrate by processes involving inherently hazardous substances; and

15 6. Repeals specific provisions of law regarding municipal authority to establish a  
16 moratorium on registered primary caregivers near schools and municipal authority to  
17 regulate dispensaries. The amendment instead enacts a new provision of law that allows  
18 municipalities to regulate registered primary caregivers, registered dispensaries,  
19 marijuana testing facilities and marijuana manufacturing facilities, except that  
20 municipalities are not allowed to prohibit or limit the number of registered primary  
21 caregivers.
