§1067. Immunization

The department may not adopt any rule or take any action that requires mandatory immunization of a person.

Sec. 12. 39-A MRSA §328-A, sub-§5, as enacted by PL 2001, c. 663, §1, is amended to read:

5. Immunization. Whenever any standard, medically recognized vaccine or other form of immunization or other prophylaxis exists for the prevention of a communicable disease for which a presumption is granted under this section, if medically indicated in the given circumstances pursuant to immunization policies established by the Advisory Committee on Immunization Practices for the Centers for Disease Control and Prevention, an emergency rescue or public safety worker may not be required by the worker's employer to undergo the immunization or other prophylaxis ~~unless the worker's physician determines in writing that the immunization or other prophylaxis would pose a significant risk to the worker's health. Absent such written declaration, failure or refusal by an emergency rescue or public safety worker to undergo such immunization or other prophylaxis disqualifies the worker from the benefits of the presumption.~~

Sec. 13. Rulemaking. The Department of Education and the Department of Health and Human Services shall amend their rules to implement the provisions of this Act. Rules adopted pursuant to this section are routine technical rules as defined in the Maine Revised Statutes, Title 5, chapter 375, subchapter 2-A.

SUMMARY

This bill prohibits mandatory immunizations for persons.
