LD 3

I am writing in regards to the use of funds from Mainecare, particularly Sect 21 and Sect 29, to assist with funding this bill. I am strongly opposed to use of any funds from Sect 21 and Sect 29 for this bill. These services are already at a critical stage due to lack of staffing and any extra funding should be directly appropriated to address the staffing crisis, which puts thousands of Mainers at risk if left unaddressed.
