

Bridget Edmonds
Brunswick
LD 3

I am writing to ask for your help in supporting Maine's families everywhere in keeping them housed this winter by supporting LD3. My kids and I live in Brunswick, and we already see tents set up in the woods in our neighborhood. There isn't enough housing, and what exists is too expensive. Please help families stay where they are this winter to avoid sending folks into the cold over Christmas. It would be utterly traumatizing to children at a time of year that should be safe and magical. Please show them how much you care by passing legislation immediately to keep them safely in their homes this winter.

Thank you,
Bridget Edmonds
