

Scott Linscott
Westbrook
LD 3

As a pastor in Westbrook, I see elderly and low income people going without food and medicine and other essentials . Added to the stress of increasing housing costs, I see members of my congregation truly struggling.

I was in shock when legislators stood against the emergency bill providing real and necessary help to our families and those on the edge of homelessness. How I wish I could get them to look in the deep brown eyes of a precious child and tell them they do not deserve shelter.

Please ACT and ACT NOW! Hosting public hearings and dragging this out until until June on procedural grounds leaves the people you were elected to represent high and dry.
