I object to this bill and the wide range of income eligible persons who don't need heating assistance; \$450 will not buy 100 gal. of oil; how pitiful is this?

The balance of the money appropriated for this bill is intended to house people who illegally entered this country and Maine citizens are being asked to pay for their hotel rooms. We are being overwhelmed with skyrocketing gas prices, cost to heat our rooms, electricity costs and basic food needs. When are we going to say No!
