LD 45

The Judiciary Committee hearing LD-45 proposal needs to re-consider this bill. The bill as written is unconstitutional. Every person whether Plaintiff or defendant has the right to equal justice. To give a defendant an unfair advantage by not granting a Landowner a FED just because a defendant makes an accusation without proving their accusation is illegal. Whether a plaintiff or a defendant you have the burden of proof for every accusation put forth. Without proof the accusation is nothing more than perjury. LD-45 takes away a Landowners rights to choose who can live in THEIR property. A landowners property is according to Blacks Law Dictionary 7th edition, where it states, "the institution of private property is protected from undue Governmental interference!" The purpose of the Judiciary is not to oppress Landowners but to settle disputes fairly and equitably. I assure you LD-45 is not fair or equitable and should be re-written or opposed by all Committee members as written.
