Testimony of the Maine Municipal Association

Neither For Nor Against

*LD 34, An Act to Require a Person to Show Photographic Identification for the Purpose of Voting*

February 6, 2023

---

Senator Hickman, Representative Supica and members of the Veterans and Legal Affairs Committee, my name is Rebecca Lambert, and I am providing testimony neither for nor against to LD 34 on behalf of Maine Municipal Association's (MMA) 70-member Legislative Policy Committee (LPC).

The bill before you today would require all voters to present proof of their identity in the form of a photographic identification for their vote to be counted. While the LPC appreciates that the state will be required to furnish a special voter identification card, the access challenges for obtaining valid identification still exist for some Mainers. From the municipal perspective, additional administrative tasks, and costs at the local level associated with verifying the provided identification is both valid and acceptable, as well as the additional steps the voters will have to take in order to get to the ballot box, are not justified given the absence of voter fraud in Maine.

In that same vein, most residents of voting age currently possess a form of identification and this bill would not present a hardship for the majority. Furthermore, it could be argued that requiring photographic identification is becoming ubiquitous in today's society and that this legislation should be enacted just to assuage the perception of any possible fraudulent voting. Though municipalities support working to combat voter fraud, there is still the possibility this bill could very well lead to eligible voters being excluded.

As election clerks will be required to verify the validity of the identification presented to receive a ballot, it will also be necessary for election clerks to receive adequate training to make that evaluation and a clear process for appeals of those decisions. If enacted, this bill will require a mandate preamble as it expands the duties of a local unit of government.

MMA's LPC supports the Maine Town and City Clerks Association members and have taken a neither for nor against position on this bill.

Thank you for your time and considering the municipal perspective on this issue..
