

Samantha Brown
South Berwick
LD 355

Honorable members of the Veterans and Legal committee,

My name is Samantha Brown from South Berwick, my daughter has been a cannabis patient since she was 2, she is now 11. Cannabis helps her tremendously with her seizures and quality of life. I have been an advocate for cannabis freedom since she started cannabis.

I am neither for nor against LD 355

Because I did not know exactly what this bill was until Senator Hickman's explanation this morning.

The only thing I would really support is to dismantle the commission.

It seems to be a waste of resources of at least time. It seems to be served by people with political connections, and also of those whom it would serve financial gains.

I don't want to see people who serve to financially hold this power over the legislature or the department.

I support dismantling.

Thank you
