I oppose any and all legislation which increases the number of marijuana plants an individual or business may possess within the state of Maine. I oppose any and all legislation which increases access to marijuana within the state of Maine.

Marijuana “is classified as a Schedule 1 controlled substance, alongside heroin, LSD, and ecstasy. The US Drug Enforcement Agency defines Schedule 1 controlled substances as those that the DEA believes to have no currently accepted medical use and a high potential for abuse.”

It is still illegal at the federal level.
