

Larry Dansinger
Bangor
LD 748

To members of the Judiciary Committee:

I write in support of LD 748. Besides being blind, justice holds scales that are balanced approximately equally, meaning that justice requires approximately equal rights for both defense and prosecution. In our courts today, that balance is not close enough to equal. LD 748 will help to create a more equal balance, and more justice, by providing defendants certain rights they should have.
