

Virginia Olsen
Stonington
LD 541

Honorable Members of the Taxation Committee,
My name is Virginia Olsen I am from Stonington, ME. I support this bill on the merits. I question how the state would side on issues between the 2 cannabis groups without one bringing in the tax support to the state that it has in the past. Would recreational cannabis be given preference because of the revenue it would be providing to Maine? I would like to propose a different idea, I would like to see this committee table this bill or send it to VLA to so we can look at the language in LD 1195. We can remove the word "Recreational" and make this fund available for all cannabis operations and we are not creating inequities within the program, this actually may help the divide.
