

My name is Ryan Schall and I am a inmate at Maine State Prison. Although I do not have enough time left in my sentence for parole to effect me. I have seen and experincedth devastating effects that not having a parole sytem in place has on men in there. Even with out parole in place I watch men continue to Fight ~~and~~ to change ~~with~~ them selfs for the better day after day Year after Year through Collage degree's and countless programs. These men deserve a second chance at life. Even for the men that are short timers it can help by knowing they have ~~a~~ something to work towards. This Parole is a tool ~~to~~ that can help change lives inside and out. It is time for change, it's time to stop locking men up and throwing away the key.

Thank you
Ryan Schall
