

My name is John Daley MDoc#45961 I Support Parole. I have been incarcerated here at the Maine State Prison for six years now. I am remorseful for the crime that I committed in the past and regret the impact that it had on the victim's family, society and my own community and family. My life before my crime including my childhood was not great, nor even normal. I believe that mental health treatment; Programming; education; job skills, and an internal desire to change are all tools for change that can lead to rehabilitation and pro-social behavior. Bringing back parole would ease the burden on the states economy. It would also give people the opportunity to receive a second chance to be a productive member of society. Thank you

Respectfully
John Daley
