

Melissa Sulloway  
Bridgton  
LD 693

Please honor and support this bill. My children and grandchildren are endangered by the large wakes that these wake boats produce. The children to whom I provide water activity are at risk of slamming into the rocks at our lakeside properties. It happens most everyday in the summer months. We all need to be considerate of each other so we can all enjoy and learn the lake experience. Also, our family has witnessed the devastation of erosion to the shorelines on both Highland Lake in Bridgton and Bunganut Lake in Lyman. Please help us preserve our lakes for future generations.
