LD 22

I oppose LD 22, An Act to Impede the Transfer of Firearms to Prohibited Persons. It is redundant as this bill is already Federal law (18 USC § 922(d)). The bill focuses on the wrong person, i.e., the UNKNOWING seller and not the CRIMINAL buyer. This is back door legislation aimed at banning private firearm sales. We do not need another law on the books that criminals will not obey. This bill must not become law.
