

Thomas Spitzz  
Orono, Maine  
LD 51

Dear Honorable Members of the Joint Committee on Education and Cultural Affairs.  
My name is Tom Spitz and I live in Orono, Maine.

I ask you to declare LD 51 and the other vaccine bills that you are considering today as ought not to pass. We lost over a million Americans to Covid -19 which proves how important vaccines are in our lives. This is a matter of public health and not a matter of religious freedom. We have a separation between Religion and State. I am 70 years old and have been required to have immunizations through out my life and did not find it burdensome. We have grandchildren in the Orono schools and the required vaccines protect them, me and my community. Thank you for reading my testimony and please declare these bills as ought not to pass.
