

Janie Whitney
Bar Harbor
LD 814

Dear Committee Members,

I am writing to ask you to support L.D. 814. We need to honor the role that these critical predators play in maintaining stable wildlife populations, controlling the spread of disease, and encouraging healthy ecosystems in our state. Coyotes, like other wild animals in Maine, should be managed through established limited seasons and allowed the opportunity to raise their young in peace.

Sincerely,
Janie Whitney
