I believe it is our constitutional right to determine what form of medical treatment we should receive by conscience, religious liberty and freedom of choice. It is called personal bodily autonomy. A particular party right now is pushing for the rights of women to be able to choose to have an abortion, yet they advocate persons should have no right to choose what should be injected into their bodies?? The injections have now been determined to be ineffective in stopping covid and bringing more harm than good. Please study the data and facts that are being released. Science began with saying the young people were barely at risk and now there is a push to even inject infants. This is outrageous! Isn't it time to do what scientists do, "question the science"? Oh but wait, when certain doctors in Maine and elsewhere, began to question the so called science, they licenses were revoked, their livelihoods taken away from them, when all they were doing was what they always did, work to save lives! Isn't it time to stop fear mongering. The people of Maine with understanding, have had enough of this. We are not ignorant and beyond being brainwashed by government/media fear tactics. It is time to do what is right and stop unilateral mandates. Follow the laws, i.e., "LIFE, LIBERTY, AND THE PURSUIT OF HAPPINESS"! Vote to support freedom, life giving choices, and let the people of Maine make their own decisions. Support, LDs 51, 869, 1098, 1148, 1209, and 1228

I would have fainted, unless i had believed that i would see the goodness of the LORD in the land of the living. Wait on the LORD; be of good courage, and He shall strengthen your heart. Wait, I say, on the LORD! Ps.27:13-14
