DO NOT pass Chapter 117. This is not acceptable, you do not tell kids to keep secrets from their parents and schools definitely do not have the right nor should they have the authority to provide medical treatments to students. Stop this attack on our children and parents. The school systems are NOT the parents nor are they, co-parents! Stop this now!

The educational system is to provide a strong academic foundation in math, reading, writing, and science. Take a look at our test scores!
