This madness has to stop. I am FOR all of these bills.

Thank you to the friendlies that never once gave up on our children and shame on those who did.

LD 1228 - An Act to Prohibit Certain Higher Education Institutions from Requiring Vaccines Approved Under Emergency Use Authorization for Admission or Attendance.

Listening to the names of those bills, you wouldn't think we would have to have this discussion but here we are.

These are OUR children, let's get that out in the open off the bat. Not yours or anyone else's.

. People can't get medical care, dental care, nurses had to leave & babies out of school.

My ggrandfathers and ggf didn't flee for freedom for this to happen. Explain how this lack of freedom and Liberty happens??!

A free education to all Maine's children & No Child Left Behind.... Unless you're "under vaccinated" & refuse to "Medicate" your children the way the state wants you to. Explain this to me.

Children with Hep B + blood can go to school but a live free child can't? Explain this to me.

Can I mandate people eat peanut butter? I hope this simplifies it for everyone, even Brandy who was sitting in the back row, smirking at injured children. All children have a right. If you're that scared, then pull your kid from public. Don't forget, there are Hep B + kids on class with your children, yet the state only ostracize one group? Ours? Why? Hatred? Dislike to disabled children? A distaste for learning handicapped kids? They need help with resources too. Or are they just not worth enough? Hmmm.... Janet, you need to rethink your choices. 10-10 Highly recommend it. Seems discriminatory to me and we will seek action.

Our lawyers look forward to hearing from you.
