

Richard Perry  
Falmouth  
LD 860

In reference to LD860, I am against LD860.

I live at 129 Middle Road in Falmouth. It's bad enough that I live next to I-295 and have dealt with the loud noise of this heavy traffic for over 26 years. The railroad tracks are in my backyard with very few trees as a boundary or privacy protection from passer-byes looking into my bedroom and bathroom windows at the exact same eye level as this proposed trail. On the other side of my house is Route 9/Middle Road which has become a very busy road where many drivers regularly go well over the speed limit of 35 mph endangering my family and dog. There will be absolutely zero backyard privacy for me and my family if this proposed trail is allowed. I use the backyard often for gardening, small bon fires, playing with my dog and kids. Having more people walk, run or bike by will force me to sell the house and move elsewhere before this trail is developed. Please help maintain me and my families sanity by voting against LD860. I am also very upset how this trail proposal has been deceitfully and intentionally kept quiet from the public and my neighbors because those in favor of the trail don't live anywhere near it and are not impacted by it in any way at all. Who will be responsible for cleaning up the trash and waste left on the trails, not to mention dog feces? Please do not approve this LD860 proposal.
