I am a former teacher, and a parent. I wish to ask that this bill be rejected. Having random people possessing firearms in schools is a horrendous idea. We need to keep our schools safe as gun free zones. Children should not be exposed to firearms. What could go wrong? There are no safeguards or regulations here. A child could gain access to a firearm. Children don't miss much. They would quickly figure out who is carrying a gun. An untrained individual should not be allowed to carry a firearm into a school! This is not the same as law enforcement. Are we wanting to have our schools become shooting galleries? Please use common sense and reject this illogical proposal.
