

Michael Wing
Accelera, Inc
LD 416

To the Committee on Appropriations and Financial Affairs,

I would like to place my full endorsement for supporting the Maine Technology Institute (MTI). Accelera, Inc., a company that I co-founded in Maine has been a client of MTI from our beginning. Through grants and the strong support provided by MTI, we were able to design, develop, and test our product, which has led to commercialization.

From a business perspective, MTI is one of Maines strongest assets for driving innovation in Maine and has had a significant impact on many companies and their employees. Please consider supporting MTI with LD 416. This is a sound investment in Maines economic future.

Sincerely,
Michael Wing, CEO
