

Ronald Breazeale
Limington
LD 1412

I grew up in the South in a small "sundown" town. If you were Black you had to be off the streets by dark, you could not own property, and you could vote only if you took the risk of registering. Somehow in this environment I grew up believing everyone was the same, even though they were not treated equally.

I married a woman most of whose family was killed in the Holocaust of WWII. Since coming to Maine over 40 years ago, I have found this State to be a place where equality is practiced, not just talked about. I would encourage you to pass this ERA bill LD 1412.

Sincerely
Ron Breazeale, PhD.
