LD 1412

Thank you for your service in being my voice in our State Legislature. I definitely want you to vote against LD 1412, because nowhere in it does it mention anything about respecting my religious rights.

The Amendment to the US Constitution, the Equal Rights Amendment (ERA), was passed in 1972, after much research and input from US citizens. LD 1412 has not had research and input from Maine citizens.

The ERA already gives Everyone full protection under the law, with religious liberty for all. Therefore, Maine needs no such Amendment, and it would infringe on the ERA.

Thank you for your attention to my message,
