

LD 1382

Public Hearing An Act to Establish the Guiding Public Health Principles of Focused Protection for Pandemics of a Highly Infectious Respiratory Disease

Memorandum of Support

Date: April 24, 2023

To: Honorable Members of the Committee On Health and Human Services

From: Jonathan Martell

RE: LD 1382

Public Hearing An Act to Establish the Guiding Public Health Principles of Focused Protection for Pandemics of a Highly Infectious Respiratory Disease

Members of the committee, I would like to express my Support of LD 1382

Public Hearing An Act to Establish the Guiding Public Health Principles of Focused Protection for Pandemics of a Highly Infectious Respiratory Disease

My Name is Jonathan Martell, and I'm from Sanford.

As you may be aware, the COVID vaccine has been shown to not provide immunity to COVID or provide any significant benefit. Studies are also showing other negative side effects such as increased rates of myocarditis, and other uncommon conditions.

Maine needs to have guidelines for focused protection when it comes to infectious diseases. Healthcare workers were fired at a time where they were critically needed. Churches and schools were closed and we are now facing an epidemic of mental health issues.

Please support this bill as we need principles and protections in place.

Sincerely,

Jonathan Martell
Sanford, ME
