Portland
LD 1215

Hello, I am a resident of Maine and mother to two school-age children. I support LD1215 and banning the sale of flavored tobacco across the state. I appreciate all efforts to curb the use of tobacco now that we are years into our understanding of the health affects and economic drain of its use. I do not want my children or their friends to start using tobacco, and with this step they will be less tempted to try it. Thank you.
