LD 1619

"Child sacrifice is the ritualistic killing of children in order to please or appease a deity, supernatural beings, or sacred social order, tribal group or national loyalties in order to achieve a 'desired result'. As such, it is a form of human sacrifice."

"The practice of child sacrifice in Europe and the Near East appears to have ended as part of the religious transformations of late antiquity (700 AD)."

The members of the Judiciary Committee must ask themselves with regard to LD 1619: What is the "desired result"? What is its purpose and why are we reintroducing such barbarism to become law in Maine in 2023?

Who, in their right mind, would sacrifice a child just about to be born for some twisted agenda or ideology? Is this how the sponsors of this bill intend to save the planet? Would it be to protect the mother from the horrendously burdensome task of giving life to another? Is the objective to commit cultural suicide? I could ask a dozen different questions none of which would make any sense whatsoever. This act is an act of evil. No other explanation exists.

A book by Abby Johnson, "Life to the Full", "reveals the certainty that it is never okay to kill an innocent human being, and for our nation to know peace, there must be peace in the womb."

Therefore, I am asking the Committee Members to vote "Ought NOT to Pass" on LD 1619.
