LD 935

I support LD 935 An Act to Remove Barriers to Abortion Coverage in Private Insurance. I am a Registered Nurse, hold a valid ME RN License and provided 43 years of nursing service to the Kennebec Valley Region. Quality healthcare including health education, insurance coverage and comprehensive follow through and follow-up for all care rendered should be IMHO the right and privilege of ALL MAINE CITIZENS. Certainly, the folks who can afford and hold private insurance should have access to reproductive health care including all abortion coverage as determined and agreed upon by their medical team and themselves.
Thank you. Kimberly Hallee 12 Gray Street Waterville ME 04901
