

Pamela Ring
Woodland
LD 1619

Madam/Mister Chair and Honorable Members of the Judiciary Committee,

My name is Pamela Ring and I live in Woodland. I am submitting written testimony today in opposition of LD 1619 An Act to Improve Maine's Reproductive Privacy Laws.

I have had the privilege of seeing two babies born prematurely at 24 weeks and not only survive but thrive. They are both healthy individuals with many gifts and talents to offer and have had a positive impact on their community and countless number of people. Every unborn baby should be given this same opportunity.

The statistics show that 2/3 of Mainers don't agree with late-term abortion. As representatives of the people, you are obligated to vote accordingly.

Please oppose this drastic bill that the greatest percentage of Mainers do not want to see pass. Thank you.
