

David Carmack
Veazie
LD 1619

Dear Maine Representatives and Senators,

Thank you for your service to our residents of Maine. Your willingness to run for and serve in public office is admirable and truly respected by me. I am writing you today to ask that you vote "Ought Not to Pass" on LD 1619. As a physician in Maine, I do greatly respect life at all stages. I realize that as Mainers and Americans, we will need to come together to determine when life "begins" and this will not be easy, but we can do it. In my opinion, LD 1619 goes too far with allowing abortion up to the time of birth. Thank you for considering my request.

Sincerely,

Dave
