

Clare Desrosiers
Linneus
LD 1343

Dear members of the judiciary committee,

I am writing to request that you oppose LD 1343.

The proposal poses great risks for women by placing all responsibility for legislation only in the hands of the State. History has made it clear that anytime the state has sole control over anything, grave misuse of power and authority occur. Our founding fathers wisely did not give the States or Federal governments wide ranging authority because they anticipated the grave abuses that occur when such authority is granted.

Please protect our citizens and vote no on LD 1343.
