LD 1619

Senators and Representatives of Maine

I am 49 years old and have lived and worked in Maine my whole life. I am proud to call it home and would like to live here the rest of my life.

LD 1619 is a violent assault on life - having an abortion on the same day a baby can be born is infanticide.

This bill would be shameful for the State of Maine and I would have to decide if I can live in a state with these types of values.

Please realize at 6,7,8,9 months this is a baby that can be born and thrive and vote no on LD 1619!
