

Marilyn Graham
Wells
LD 1619

Thank you for representing me in our State Legislature. Please vote NO on LD1619. This is a very extreme law, and tantamount to Infanticide here in our great state of Maine. Moms and Dads deserve better choices here. They deserve a chance to raise healthy, strong families with our support. They deserve scientifically based information on Fertility, so that they can plan and space, rather than kill, their children. Prospective parents need support to raise their babies in a healthy environment. Thank you for reading my testimony, and may God give you wisdom when you vote.
