

Steven Holmes
Woodland
LD 1619

My name is Steven Holmes. Most of my life I have lived in Texas but now live in Woodland, Maine. Thank you for the opportunity to share my thoughts. I'm 71 years old and was never blessed to have natural children. I have learned that the only two countries that allow full term abortions are North Korea and China. I would appeal to the Maine Legislature body to not put Maine on the same moral depraved level as these two countries that use abortion as a means of birth control.
